 Relie les insectes imaginés par Antoon Krings et les insectes réels.

A matching activity with two columns of insect images. The left column contains four imaginary insects: a purple ant with a green backpack, a bee with a black and white body and a small hat, a colorful butterfly with a yellow and red body, and a yellow and red bee with a crown. The right column contains four real insects: a monarch butterfly, an ant, a wasp, and a bumblebee. A red line connects the purple ant to the ant in the second row.

A matching activity with two columns of insect images. The left column contains four imaginary insects: a red ladybug with a crown, a green insect with a red hat and a blue umbrella, a brown insect with a crown, and a green grasshopper with a purple hat. The right column contains four real insects: a black beetle, a ladybug, a grasshopper, and a cicada.
